Sagtec Global Announces Successful Corporate Name Change of Subsidiary to CLAI Tech Sdn. Bhd.

Name change reflects the Group's strategic transition towards AI-powered enterprise solutions and the continued development of the CLAi technology ecosystem

KUALA LUMPUR, MALAYSIA, October 13, 2026 (GlobeNewswire) – Sagtec Global Limited ("Sagtec Global" or the "Company") (Nasdaq: SAGT), a technology solutions provider specialising in artificial intelligence software customisation, AI-assisted technology infrastructure and cloud-based digital solutions, today announced that its wholly owned subsidiary, formerly known as CL Technologies (International) Sdn. Bhd., has successfully changed its corporate name to CLAI Tech Sdn. Bhd. ("CLAI").

The name change has been formally completed following the necessary corporate and regulatory procedures in Malaysia. It represents an important milestone in Sagtec Global's ongoing transformation and reinforces CLAI's strategic focus on artificial intelligence technologies, enterprise automation and intelligent digital solutions.

The rebranding follows Sagtec Global's recent introduction of CLAi 1.0, its internally developed artificial intelligence platform designed to assist businesses and users across multiple digital functions. The platform brings together AI-powered capabilities including intelligent conversational assistance, software coding support, image creation, video generation, data analysis and business process automation within a unified environment.

By adopting the name CLAI Tech Sdn. Bhd., the subsidiary's corporate identity is now more closely aligned with its principal technology platform and future business direction. The new identity is intended to support stronger market recognition of the CLAi brand as Sagtec Global expands its range of AI-driven products and services.

CLAI is expected to serve as a central platform for the Group's AI research, software development, product integration and commercialization initiatives. In addition to offering CLAi as a standalone platform, Sagtec Global intends to progressively integrate its AI capabilities into the Group's existing technology solutions, including its HALO AI-powered point-of-sale and human resources management systems.

The Group also plans to deploy CLAi's capabilities across its existing business channels, including data analysis, data management, cloud infrastructure, social media management and customized enterprise software solutions. This integration strategy is intended to enhance automation, improve operational efficiency and create more intelligent and scalable solutions for customers across different industries.

The corporate name change does not alter the ownership, management, existing contractual obligations or business operations of the subsidiary. All existing agreements, commitments and business relationships entered into under the former name will continue to remain valid and effective, subject to the applicable terms and legal requirements.

Mr. Ng Chen Lok, Chairman and Chief Executive Officer of Sagtec Global, commented:

"The successful change of our subsidiary's name to CLAI Tech Sdn. Bhd. represents more than a corporate rebranding. It reflects the strategic direction that we have established for the next phase of the Group's development. Artificial intelligence is becoming increasingly central to how businesses operate, analyse information and engage with their customers, and we believe CLAi can play an important role in that transformation."

Mr. Ng continued:

"Following the introduction of CLAi 1.0, we are now strengthening the corporate foundation behind the platform. By bringing the subsidiary and platform under a unified identity, we aim to build stronger brand recognition, accelerate the integration of AI into our existing products and develop new commercial opportunities in Malaysia and international markets."

Sagtec Global believes that the transition to CLAI will support the Group's long-term strategy of developing a broader AI technology ecosystem. This includes generating recurring revenue through platform subscriptions, enterprise licensing, software customization, system integration, cloud services, data management and ongoing technical support.

The Group intends to continue investing in the development and enhancement of CLAi's capabilities, including solutions tailored to the operational requirements of businesses in retail, hospitality, human resources, data management and other enterprise sectors.

The name change applies specifically to the Malaysian subsidiary formerly known as CL Technologies (International) Sdn. Bhd. Sagtec Global Limited will continue to operate under its existing corporate name, and its ordinary shares will continue to trade on the Nasdaq Capital Market under the ticker symbol "SAGT."
